RD Master: Full User Manual

Welcome to **RD Master**! This tool automates your DOP portal tasks, saving you hours of manual calculations and schedule preparation. Here is how to use the core features of the app.

1. First-Time Setup (Onboarding)

Before creating schedules, you need to link the app to your portal and fetch your data.

- **Google Sign-In:** When you open the app for the first time, tap the Google Sign-In button at the bottom of the screen and select your Google account.

- **Accept Terms:** You will be navigated to the Terms & Conditions page. Scroll to the very bottom of the page to activate the **Accept** button, then tap it.

Terms & Conditions

COMPLIANCE)

You act as the "Data Fiduciary" for any client data (names, account numbers, financial details) processed through this Application.

- The Application processes and stores this sensitive personal data locally on your device only.
- The Developer does not possess, transmit, or harvest your clients' data or your India Post agency credentials to external servers.
- It is your legal responsibility to maintain the physical and digital security of your device (via PIN or Biometrics) to prevent unauthorized access under the IT (Reasonable Security Practices) Rules, 2011.

6. PORTAL CHANGES & SERVICE AVAILABILITY

The User acknowledges that India Post may update or modify its portal architecture at any time. The Developer is under no obligation to ensure compatibility with future portal revisions, nor does the Developer guarantee uninterrupted automation capability. The Application is provided "AS IS".

7. INDEMNIFICATION

You agree to indemnify and hold harmless the Developer, Raushan Kumar, from any claims, damages, liabilities, or legal disputes arising from your misuse of the Application or violations of postal agency guidelines.

Please scroll to the bottom to acknowledge your understanding and assumption of these risks.

I Agree & Accept

- **Add Details:** Enter your Agent Name, Portal ID, Password, and Phone Number.

Complete Your Profile

Enter your official agent details to configure your automation profile.

Save & Continue

- **Auto-Sync:** After submitting your details, you will be navigated to the Home page where the bot will automatically start syncing your accounts from the postal portal.

2. Generating a Deposit Schedule (Lots)

Automating your monthly deposit schedules is the most powerful feature of RD Master.

- **Select Accounts:** Go to the **Create** tab (the + icon in the center of the navigation bar). Select specific accounts by tapping the + icon next to them, or select custom Groups you want to include in this deposit batch.

- **Verify Selection:** Selected accounts will appear at the top of the screen. Review them to ensure the selection is correct.

- **Generate Lot:** Tap **Generate Lot**. The app will automatically compute all applicable rebates and default fines.

Schedules

- **Lot Management:** The app will move you to the Lot page. If the total lot amount exceeds ₹20,000, it will automatically split the accounts into multiple lots and display the fines and accounts inside each lot.
- **Swipe to Transfer:** If you want to move an account from one lot to another, tap the **Swipe** button on that account. The app will show all available lots with remaining space, or you can create a new lot to transfer that account.
- **Confirm & Export:** After verifying everything, tap **Confirm and Start**. Once the bot finishes, navigate to the **Schedules** tab to view, download, or share the final generated PDF.

3. Managing Accounts

Use the Accounts tab to track every client's status at a glance.

- **Smart Filters:** Tap the tuning (filter) icon at the top to instantly view accounts grouped by their exact status (e.g., *1st Half Pending, Defaulters, To Be Frozen*).
- **Account Details:** Tap any client card to view their total paid installments, next due date, and exact RD amount.

4. PDF Exports

- **Custom Lists:** On the Accounts screen, apply any filter (like *Matured* or *Advance Deposits*) and tap the floating **Export PDF** button to generate a clean, shareable list.

5. Fetch ASLAAS Numbers

- Navigate to the **Home** tab.
- In the Quick Actions section, tap the **Fetch ASLAAS** card. The bot will automatically fetch all the ASLAAS numbers for your accounts from the portal.

6. Update ASLAAS Numbers on Portal

- Navigate to the **Home** tab.
- In the Quick Actions section, tap the **Update ASLAAS** card.

- Select an account number, enter the new ASLAAS number, and tap **Add to Queue**. You can add multiple accounts to this queue.

 **Queue ASLAAS Updates**
